Education

University of Technology, Sydney (UTS)

PHD IN SCIENCE

Sydney, Australia

May 2019 - December 2023

- Advisor: Dr. Alen Faiz
- Advisor: Prof. Dr. Brian Oliver

In collaboration with **University of Groningen (RUG)**. My PhD project was to elucidate the transcriptomics and epigenetics of (severe) COPD and to elucidate the effects of smoking or inhaled corticosteroid (ICS) usage on epigenetics in COPD. I used bioinformatical techniques to answer several questions in bulk RNA-seq, small RNA-seq, protein sequencing, and 850K methylation data. (Publications are listed below.)
